

WILD LIFE

SYDNEY

A visual Story

Visual stories are used to prepare a person for, and increase the predictability of a new environment or situation. This helps bring familiarity to a process and to reduce anxiety and stress. Visual stories are written in an easy to read format and use pictures to provide greater accessibility for everyone

Accessibility

The Zoo has a range of accessibility tools available. These include:

- Magnifying glass
- Magnifier strip
- Magnifier sheet
- Ear plugs
- Noise reducing ear protection

The Zoo is fully wheelchair accessible. I can use the elevators and ramps to travel between floors.

The Kangaroo Walkabout area has uneven, bumpy ground so I should be careful when moving through this space.

Mobility aids such as wheelchairs are available at no cost. I will have to leave my ID with reception. I will get my ID back when I return the wheelchair.

Assistance animals are welcome at the Zoo, however I am unable to bring my assistance animal into Kangaroo Walkabout.

WILDLIFE Sydney Zoo supports and recognizes the Hidden Disability Sunflower.

The Hidden Disabilities

Sunflower Lanyards

The Sunflower is a globally recognised symbol for Hidden Disabilities.

The lanyard is a way that people with Hidden Disabilities can indicate to staff that they may need extra support time and understanding.

There will be a limited number of lanyards available at the Zoo.

It is OK if I don't have a lanyard, I can still get help if I need.

If I already have a Sunflower lanyard I can bring it with me.

During my visit to the Zoo, I might come across different sensory experiences.
